IMPACT: State

Summary of Legislation: This bill has the following provisions:

- (1) Authorizes the operator of a private toll facility to enforce toll violations through an automated traffic law enforcement system.
- (2) Provides that the Bureau of Motor Vehicles (BMV) shall withhold the registration of a vehicle that was operated in the commission of a toll violation if the owner of the vehicles fails to pay applicable fines and charges.
- (3) Provides that the operator of a private toll facility is not required to pay fees for certain BMV records.

Effective Date: July 1, 2015.

Explanation of State Expenditures: This bill could increase the workload of the BMV to withhold vehicle registrations of individuals who fail to pay citations issued for toll road violations and provide toll road operators with registration information at no charge. Increases in workload are indeterminable.

The bill's requirements represent an additional workload and/or expenditure on the agency outside of the agency's routine administrative functions. Existing staffing and resource levels if currently being used to capacity may be insufficient for full implementation. The additional funds and resources required could be supplied through existing staff and resources currently being used in another program or with new appropriations. Ultimately, the source of funds and resources required to satisfy the requirements of this bill will depend on legislative and administrative actions.
